

Class: Badgers

Barndale Learning Plan

Term: 22/23 Summer 1

Books to support our learning.

Communication, Language & Literacy

The children write every day, rehearsing aloud what they want to say, before spelling the words using the graphemes and 'tricky' words they know. They practise handwriting every day: sitting at a table comfortably, they learn correct letter formation and how to join letters speedily and legibly. Children's composition (ideas, vocabulary and grammar) is developed by drawing on their own experiences and talking about the stories they read.

Science

What are the properties of everyday materials?

This 'Properties and Changes of Materials' unit will teach your child about different materials, their uses and their properties, as well as dissolving, separating mixtures and irreversible changes. The children will sort and classify objects according to their properties. They will explore the properties of materials to find the most suitable material for different purposes.

Enrichment & Ways to Wellbeing

This topic builds on children's knowledge of how we grow and change, both physically and emotionally, and the types of relationships that people have. Children will learn about sexual relationships and sexually transmitted diseases. They will also learn about positive body images and stereotypes. The children will be answering the question: What physical changes will young people experience during puberty?

Rotten Romans

Knowledge and Understanding of the World

How did the Roman Empire affect the history of the world?

In this unit about the Romans, your child will learn about the spread of the Roman Empire out of Italy and across large parts of Europe.

Therapeutic Input

Some of the class will access their individualised therapy plans from the speech and language and occupational therapy teams. Within class we will explore texture and touch within PSHE sessions as we use moisturiser and soap to soften our hands.

Numeracy & Problem Solving

In multiplication and division we will be focusing on multiplication facts and pattern recognition. We will continue solving multiplication problems using their knowledge of times tables. We will use our knowledge of multiplication to solve division problems. We will also learn about square and cubed numbers. In Functional Maths we will continue to learn about money.

Computing

What is a Spreadsheet?

This unit introduces the learners to spreadsheets. They will be supported in organising data into columns and rows to create their own data set.

The Arts

How do I start a design project?

Refers to their design or plans whilst making. Works out the order of the process when making their product. Selects materials relating to their functionality. As well as continuing with our woodwork skills, hosting the Barndale Radio Show and attending weekly music sessions.

Physical Education

We will develop our movement, improving our stamina and staying healthy through two weekly PE sessions. Each week, we will be swimming and we will go to the studio.
