

Class:
1 Ladybirds

Barndale Learning Plan

Term:

2023- 2024 Summer 1

Books to Support our Learning

Physical Development

How do I move in different ways?

This half-term we will focus on moving in different ways. We will look at how we can control our bodies to make different movements and how we can move safely around the environment. Our weekly swimming lessons will be used to develop our water safety, building our water confidence and strengthening our muscles. We will also be working on our own individual targets.

Personal, Social and Emotional Development

How do I feel?

This term we will be focussing on Self Regulation. We will be learning about different emotions and how to recognise them in ourselves. This will help us to begin to understand how to regulate our behaviour accordingly. We will also be working on our own individual targets and continue to build independence in personal care and relationships.

Literacy

What do I think comes next?

This half-term we will be focussing on sequencing. As well as working on our individual literacy targets, we will be focussing on ordering familiar stories, using symbols to sequence familiar events and filling in gaps in familiar songs.

Growing Gardens

Communication and Language

How do I communicate?

Communication is at the heart of everything we do in Ladybird class. We will be working on building our communication skills and understanding of language through spoken words, Makaton and PECS. As well as being incorporated into everything we do, we will work on our individual targets through small group activities and 1:1 work with an adult.

Mathematics

What can I find out about quantities?

This half-term our numeracy work will focus on more or less. We will be working on individual targets to develop our understanding of basic mathematical principles and numeracy skills, such as counting and 1:1 correspondence. We will also develop our understanding of measure through a focus on heights.

Expressive Arts and Design

What can I design?

This half-term we will experiment with designs. We will look at designing our own gardens and explore different designs through garden-themed art. As part of our music, we will be listening to different pieces, thinking about how they make us feel and using instruments to design and produce our own music.

Therapeutic Input

We will be working closely with the Speech and Language Therapist, Physiotherapist, Occupational Therapists and Multi-sensory teacher to work on our individual targets.

Understanding the World

What can I find in a garden?

Through our topic work on Gardens, this half-term we will be focussing on plants and minibeasts. We will look at different plants and how they grow as well as identifying common minibeasts we might find in our garden. We will focus on the natural processes and changes we see as we also look at the seasonal effects of Spring.
