

Books to support our learning.

Communication, Language & Literacy

This term, we will start a new Literacy group where all the Foxes will stay together and be taught by our Foxes staff. Our work this term will include Instructions, Explanation texts and Information texts. We will use Spelling Frame to help develop our spelling. Our reading for pleasure book will continue to be "The boy in the dress" by David Walliams.

Science

Who needs plants anyway?

In Science, we will learn that life on earth would not exist without plant life. We will learn the life cycle of plants and how to identify all parts of the plant. We will be working with Alnwick Gardens to learn how to plant and care for plants.

Enrichment & Ways to Wellbeing

We will be using Stormbreak activities to help us establish the importance of movement and being happy. We will take daily Stormbreaks activities with Andy and be able to explain how they make us feel.

TRADE and ECONOMICS

Knowledge and Understanding of the World

What is Fair Trade and why is important?

Over the coming weeks we will look into what Trade is and how the world benefits from it. We will research into Fair Trade and why it is important that people are treated "fairly". We will visit local shops and look for Fair Trade products; are they freely available in Alnwick?

RE

What would Jesus do?

How do Christians decide how to live? What leads them in the lifepath? We will make connections between what people believe and how they live, individually and in communities

Numeracy & Problem Solving

In Maths, in our different maths groups we will be looking at decimals, perimeter & mass amongst other things. Our maths curriculum has been newly developed for skills we will need in our future lives. We'll continue to practice our times tables using TT

Computing

Lights, Camera, Action!

During our computing lessons, we shall be looking at Creating Media and video production. We shall look at filming techniques, using storyboards and importing and editing videos.

Art & Design Technology

Can a can of soup be art?

In art, we will explore textures and describe elements of a piece of art with Faye. In DT, we will look at different mechanisms and how we can make moving projects with levers.

Physical Education

Anyone for cricket?

As well as continuing with swimming this half term, we will be focusing on cricket during PE. We'll learn throwing, catching and batting skills and learn how to utilise these skills in a game situation.
